1	Steel Glass 	1
Go to the next slide....		

2	Steel fork		1
3	Water		1 glass

AIR HORN WHISTLE

1	Small plastic cylindrical box		1
2	Old sketch pen		1

PRE-PREPARATION STEPS FOR PARENTS

Step 1	Take the small cylindrical plastic box and sketch pen we need for making air horn whistle		
Step 2	With a marker draw a circle on the bottom of the box with a diameter of the sketch pen so it fits in the box.		
Step 3	With a marker draw a circle on the top side of the box with a diameter of the straw so it fits in the box.		
Step 3	With a heated knife/thick nail or soldering rod cut holes from the two small circles.		
Step 4	You would have the cylindrical box with two holes one on side and one in the bottom ready for the experiment.
